

Cut, grind, finish and more... with a world-class abrasive system that helps you work smarter, finish faster!

FEATURING

Scotch-Brite™ Precision Surface Conditioning Discs

Re-defining non-woven surface conditioning discs!

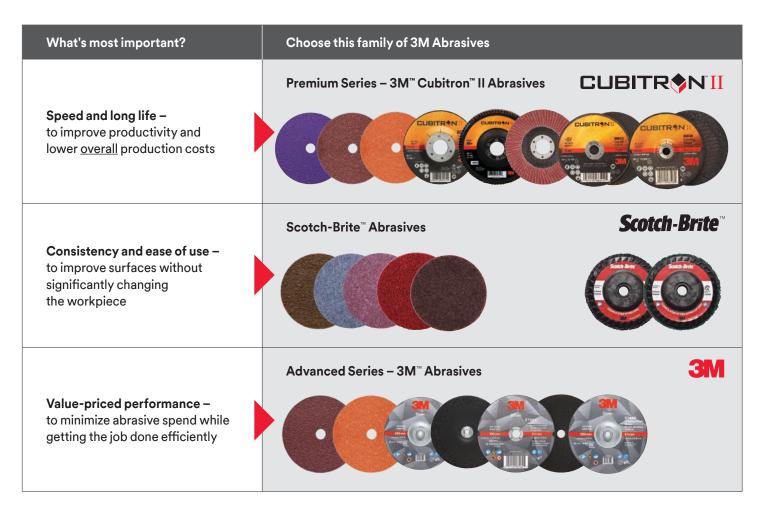

General Guidelines

Which series is right for you?

Choose 3M™ Cubitron™ II Abrasives for their legendary speed and long life, or Advanced Series discs and wheels for value-priced performance. Scotch-Brite™ Abrasives deliver consistent, reproducible results, making it easy to ensure quality finishes.

Bonded wheel product comparisons

Speed and durability rated on a scale of 1 to 5, with 5 stars being the best.

^{*} Contains less than 0.1% Fe, S and Cl

Complete your lineup.

Genuine 3M[™] Power Tools (See page 34)

These professional grade sanders, grinders and cut-off wheel tools are optimized for use with 3M™ Cubitron™ II Abrasives and 3M™ Abrasives.

NEW!

3M Personal Protective Equipment*

Light weight, comfortable welding helmet with advanced auto-darkening optics that adjust to your working conditions.

3M[™] Speedglas[™] Welding Helmet 9002NC (PN 04-0100-20NC)

Help protect your forehead and face against sparks, chips and debris.

3M[™] Ratchet Headgear Head and Face Protection (PN 82783-00000)

Comfortable eye protection with anti-fog lenses for a clear view of your workpiece.

3M[™] SecureFit[™] Protective Eyewear (PN SF401AF)

Quick, comfortable hearing protection that stays clean, even when your hands are dirty.

3MT F-A-RT UltraFit Corded Farm

3M™ E-A-R™ UltraFit™ Corded Earplugs (PN 340-4004)

^{*}When properly selected and worn according to the User instructions, 3M Personal Protective Equipment (PPE) helps reduce exposure to certain hazards. Before use, the employer must conduct an appropriate hazard assessment, select and provide appropriate PPE, and the wearer must read and understand the User Instructions provided as a part of the product packaging. Follow all local regulations. Misuse may result in sickness or death. For correct use, consult supervisor and User Instructions, or call 3M Personal Safety Division (PSD) Technical Service in the U.S.A. at 1-800-243-4630. In Canada, call 1-800-267-4414.

Meet the

Premium Series

of right angle abrasives for unparalleled power and performance!

Featuring:

- 3M™ Cubitron™ II Abrasives for an unbeatable combination of speed and long life
- Scotch-Brite[™] Abrasives for ease of use and consistent quality finishes.
- Featuring the Scotch-Brite[™] Precision Surface Conditioning Disc; the first non-woven disc with 3M precision shaped grain

Optimized for applications including:

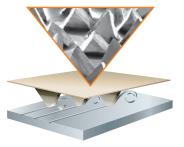

- Beveling
- Blending
- Cutting
- Deburring
- Grinding
- Weld removal

Used in industries such as:

- Agricultural, industrial and construction machinery
- General metal fabrication
- Oil and gas
- Ship building
- Stainless steel fabrication
- Structural steel

The Science of Precision-Shaped Grain

Conventional ceramic abrasive grain tends to "plow" through the metal, causing heat to build up in the workpiece and the abrasive – resulting in a slower cut and shorter abrasive life.

3M Precision-Shaped Grain uses 3M microreplication technology to form sharp peaks that easily "slice" through metal — cutting cooler, faster and lasting longer than conventional abrasive grain.

Experience the power of re-engineered 3M Precision-Shaped Grain: see page 12.

3M[™] Cubitron[™] II Depressed Center Grinding Wheels

Go the distance.

3M™ Cubitron™ II Depressed Center Grinding Wheels are fast cutting, long lasting and require less pressure. These cool cutting wheels are ideal for heavy grinding and weld removal. Specially formulated for use on stainless and mild steel. Available with quick change attachment. DO NOT USE ON TOOLS WITHOUT GUARDS.

3M[™] Silver Depressed Center Grinding Wheels

The next-best thing to a 3M[™] Cubitron[™] II Wheel. And it still beats the competition, hands down.

3M Silver Depressed Center Grinding Wheels (DCGW) represent a new class of long-lasting right-angle abrasives – powered by the legendary speed and long life of 3M Precision-Shaped Grain and engineered to offer an outstanding value, when abrasive cost takes precedence over reducing total production time. They are an ideal choice for applications like weld removal, beveling, edge chamfering and more – offering a longer life and faster cut than aluminum oxide, alumina zirconia and conventional ceramic abrasives.

What's the bottom line?

If you're looking to optimize productivity, and see the value it brings to shop savings, choose **Cubitron II Depressed Center Grinding Wheels.**

- ✓ Highest productivity
- ✓ Lowest overall production cost

If your concerns are more cost-driven, try 3M Silver Depressed Center Grinding Wheels as an alternative with excellent performance.

- ✓ High productivity
- ✓ Lowest overall abrasive spend

Premium Series

3M[™] Cubitron[™] II Fibre Discs 982CX Pro

The best just got even better.

Featuring re-engineered 3M Precision-Shaped Grain and a redesigned construction, these fibre discs cut 33% faster and last even longer than our legendary 3M™ Cubitron™ II Fibre Discs 982C. Plus, they cut with less pressure to help reduce operator fatigue. Cubitron II Fibre Discs 982CX Pro are ideal for aggressive medium and high-pressure grinding on carbon steel. Plus, they are contaminant-free and INOX compliant!

3M™ Cubitron™ II Fibre Disc 982CX Pro, Grade 36+

► Tech Tip

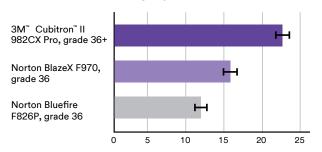

Unwanted elements like iron can become embedded in a weld or substrate and weaken the finished product. 3M™ Cubitron™ II Fibre Discs 982CX Pro are contaminant-free and INOX compliant – which is especially important for some shipbuilding and stainless steel vessels, and other applications where weld integrity is critical.

3M[™] Cubitron[™] II Fibre Discs 982CX Pro

Experience the power of re-engineered 3M Precision-Shaped Grain

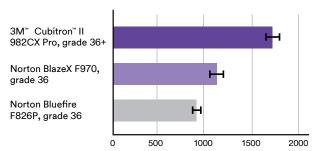

We didn't reinvent the wheel - but we re-engineered our legendary precision-shaped grain to shift productivity into an even higher gear. The new 982CX Pro fibre disc is designed to outperform and outlast original 3M™ Cubitron™ II Fibre Discs, giving you more power than ever before.

Cut Rate Comparison (g/Cycle)

Faster cut-rate than Norton BlazeX F970, grade 36 Faster cut-rate than Norton Bluefire F826P, grade 36

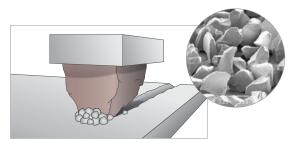

Material Removed (g)

More material removed than Norton BlazeX F970, grade 36 Nore material removed than Norton Bluefire F826P, grade 36

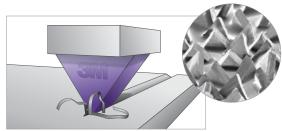

Results are based on an automated, 16 minute grinding test on 1018 steel using 7 inch 3M™ Cubitron™ II Fibre Discs 982CX Pro, grade 36+ and 7 inch competitive fibre discs, grade 36 with a 3M™ Disc Pad Face Plate Ribbed 80514 on a servo motor. Each cycle consists of 13 seconds of grinding. Error bars represent the 95% confidence interval for the mean.

Conventional ceramic abrasive grain tends to "plow" through metal, causing heat to build up in the workpiece and the abrasive, resulting in a slower cut and shorter abrasive life.

Conventional Ceramic Abrasive

3M pioneered the first precision-shaped grain using 3M microreplication technology to form consistent sharp peaks that easily "slice" through metal—cutting cooler, faster and lasting longer than conventional abrasive grain.

3M Precision-Shaped Grain

And now, we've done it again.

Tech Tip

To optimize abrasive life and productivity, use the new 3M™ Pneumatic Angle Grinder or Pneumatic Sander (page 30) with the new, one-piece 3M™ Disc Back-up Pad, Ribbed, Extra Hard.

Premium Series

3M[™] Cubitron[™] II Fibre Discs

Legendary power and performance

Cubitron II Fibre Discs are engineered to cut faster, cooler and with less grinding pressure than conventional abrasives. And they are long lasting for increased productivity! Choose **Cubitron II Fibre Discs 987C** for cool cutting on stainless steel, high-nickel alloys and superalloys. For carbon steel applications, try our **Cubitron II Fibre Discs 982C**.

3M[™] Fibre Discs 782C and 787C

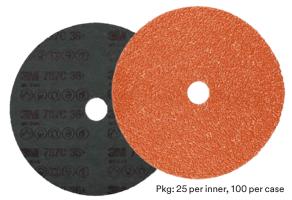

An unbeatable combination of performance and value.

3M[™] Fibre Discs 782C and 787C represent a new class of high-performance, right-angle abrasives – powered by the legendary speed and long life of 3M Precision-Shaped Grain. They are an ideal choice for applications like weld removal, beveling, edge chamfering and more – offering a faster cut and longer life than alumina zirconia (AZ) and conventional ceramic abrasives. 3M[™] Fibre Disc 782C is an ideal choice for carbon steel. 3M[™] Fibre Disc 787C is optimized for stainless steel and non-ferrous metals like aluminum.

3M[™] Cubitron[™] II Flap Discs

The one-step alternative to bonded wheels and fibre discs.

3M™ Cubitron™ II Flap Discs let you breeze through a wide range of tough jobs around the shop, including grinding, weld removal, deburring and more. These smooth-running wheels are designed to cut with less pressure. They include a grinding aid to help maintain cutting efficiency on heat-sensitive metals. And, because they are made with 3M Precision-Shaped Grain, they keep on cutting – long after other flap discs have called it quits!

3M[™] Cubitron[™] II Flap Discs 967A

Constructed with a poly-cotton backing that exposes fresh mineral as they wear, for a fast, forgiving cut. Perform well on many common applications, offering a great balance of fast cut and long life.

► Tech Tip

3M[™] Cubitron[™] II Flap Discs will often produce a finish equivalent to the next-finer grade of a fibre disc (i.e., a 60-grit flap disc will usually leave a finish similar to an 80-grit fibre disc) – saving you time and finishing steps!

Advanced Series

3M[™] Flap Discs 769F

Everyday value. Exceptional performance.

These value-priced discs harness the power of 3M Precision-Shaped Grain <u>and</u> the versatility of flap discs, all at a price that's affordable for everyday use. Get dependable performance with fewer disc changes – and get more work done over the life of your disc.

Improved plastic hub is both rugged and lightweight!

Fibre Discs vs. Depressed Center Grinding Wheel vs. Flap Disc

Advanced Series

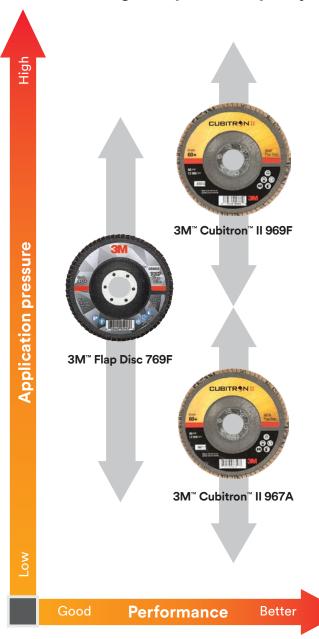

A word about wear.

The life and cut of a flap disc is determined by how quickly the backing wears away to expose new mineral. If it wears too quickly, it can significantly shorten the disc life. But if it doesn't wear properly, the disc might stop cutting altogether. The backing in 3M™ Flap Discs 769F is designed to wear just the right amount to provide consistent cut over a wide range of medium- and heavy-duty applications. Combined with the power of 3M Precision-Shaped Grain, that helps 3M™ Flap Discs 769F outperform the competition – at a value price!

For even faster cut and longer life, try 3M™ Cubitron™ II Flap Discs 967A and 969F. See pages 16-17.

Choose the right flap disc for your job.

Medium duty

- Weld removal
- Scale removal
- Oxide removal
- Surface prep
- Blending
- Light cleaning

Heavy duty

- Edge deburring
- Aggressive weld removal

3M™ Cubitron™ II Cut & Grind Wheels

Cut. Grind. Done.

These versatile wheels are designed to be used both as a depressed center grinding wheel and as a cut-off wheel – making them ideal for cutting, grinding, gouging and more. After 10 minutes of use, they nearly doubled the output of our closest competitor while removing nearly 2x the material.

3M™ Cubitron™ II Cut & Grind Wheels Cut Faster! After 10 min., nearly double the output of our closest competitor

3M[™] Cubitron[™] II Cut & Grind Wheels Last Longer! Removes nearly 2x the material, compared to our closest competitor

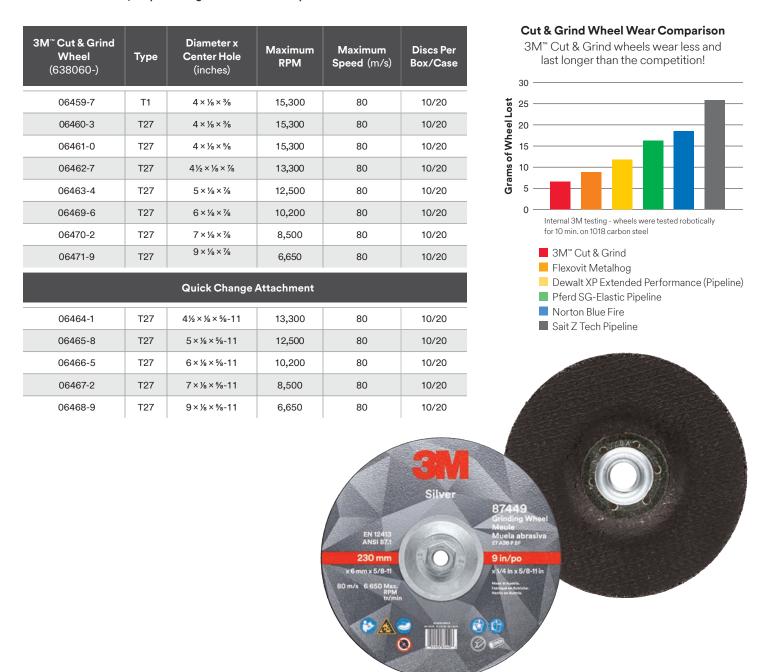

3M™ Cut & Grind Wheels

Value and versatility.

The newest addition to our Advanced Series of abrasives, 3M Cut & Grind Wheels are designed for use as both depressed center grinding wheels and cut-off wheels, so you can get more done for your dollar.

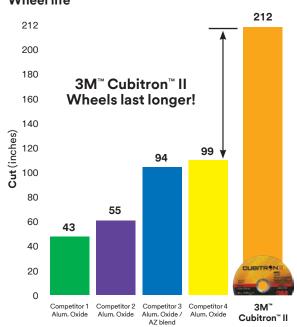

3M™ Cubitron™ II Cut-Off Wheels

Cut to the chase.

Cubitron II Cut-Off Wheels are designed to provide high cut rates on all types of ferrous metals, stainless steels, alloy steels and cast iron. They offer long life to help reduce cost. Plus, their fast, cool cutting action helps make your job easier!

Wheel life

3M™ Silver Cut-Off Wheels

A cut above the ordinary.

3M™ Silver Cut-Off Wheels are premium performance wheels designed to be affordable for everyday use. Featuring 3M Precision-Shaped Grain technology, these innovative wheels deliver fast, smooth cutting action on all types of ferrous metals, stainless steels and alloy steels. Plus they last longer than aluminum oxide and alumina zirconia wheels. That means fewer wheel changes and more finished parts per wheel to help improve shop productivity and control your costs.

Discs medium grade
discs finishes 3X as many
aluminum parts than
Norton Rapid Prep MED
and SIA 6270 MED.

▶ Tech Tip

Suitable for aluminum and soft metals, carbon steel, stainless steel, and more. See page 36 for Accessories.

NOTE: Based on 3M internal testing: 3" discs were tested robotically on 6061 aluminum until the end of life (end of life is determined to be 50% of the averaged cut rate of the first three minutes) using a 3" 3M" Hard Back-Up, part number: 45091. One part is equivalent to 20 g of material removed.

NEW! Scotch-Brite[™] Universal Surface Conditioning Back-up Pad See page 33 for more information.

SCOTCH-BRITE™ PRECISION SURFACE CONDITIONING DISCS

With Precision Shaped Grains

FASTER TO THE FINISH

Meet the next advancement in surface conditioning technologies: Scotch-Brite™ Precision Surface Conditioning Discs. This new addition to the Scotch-Brite™ lineup promises the consistency you've come to expect with increased cutting speed and longer abrasive life. By combining two flagship 3M technologies — nonwoven fibre and ceramic 3M Precision-Shaped Grain — you can get the ideal finish, faster.

LOAD RESISTANCE

Tech Tip

Use for all your general surface conditioning needs. Scotch-Brite SC discs are durable enough for sharp edges, so they are ideal for use on rougher workpieces.

▶ Tech Tip

Use a Disc Pad Hub, Disc Pad Face Plate, and Disc Retainer Nut for ultimate disc performance. See page 36 for Accessories, including the NEW Scotch-Brite™ Universal Surface Conditioning Back-up Pad.

SCOTCH-BRITE™ SURFACE CONDITIONING DISCS (SC)

FOR GENERAL PURPOSE BLENDING

The ideal choice for general purpose surface conditioning, including finishing, cleaning and light deburring. Helps you achieve a consistent, paintable finish in fewer steps without damaging the base material. Durable open-web construction is designed to resist loading and greatly increase the life of the disc — so you don't have to change discs as often. Easily attaches to and removes from 3M™ Hook-and-Loop Backup Pads.

► Tech Tip

Use for light stock removal and aggressive blending operations.

▶ Tech Tip

2-Step Weld Removal & Prep for Paint

STEP 1:

Remove the weld with 3M™Cubitron™II Fibre Disc 982CX Pro grade 36+

STEP 2:

Finish with Scotch-Brite LGB SD Disc

(>3 mil)

NOTE: For best results, use with red (extra hard) or black (hard) 3M™ Disc Face Plates.

► Tech Tip

To optimize abrasive life and performance, use the convenient one-piece 3M™ Disc Back-up Pad, Ribbed, Extra Hard. See page 36 for Accessories.

HEAVY DUTY

► Tech Tip

3M™ Hookit™ attachment system offers quick and easy disc change-out for multi-step finishing processes

▶ Tech Tip

Use a disc pad hub, disc pad face plate, and disc retainer but for ultimate disc performance. See page 36 for accessories.

SCOTCH-BRITE™ SE SURFACE **CONDITIONING DISC**

Scotch-Brite™ SE Surface Conditioning Discs combine an aggressive, non-woven disc to perform heavy-duty deburring and finishing with the efficiency of a hook and loop attachment system. Our heavy-duty non-woven fiber construction conforms well to help preserve edges as well as irregular or contoured surfaces.

Choose the disc that's right for you:

XT Pro

- Rust, paint, light mill scale removal
- Maintains workpiece shape
- Low sparking
- Ideal for surface prep
- Made with silicon carbide mineral

вотн

- Rapid coating removal and surface prep
- Decreased chunking extended life
- Highly conformable
- High speed rating
- Quick-change, spin-on thread

XT Pro Extra Cut

- Heavy rust and rust pit removal without leaving divots
- Thick paint and coating removal
- Weld refinement and removing weld discoloration
- Cuts to bare metal quickly
- Ideal for adhesion prep
- Made with aluminum oxide mineral

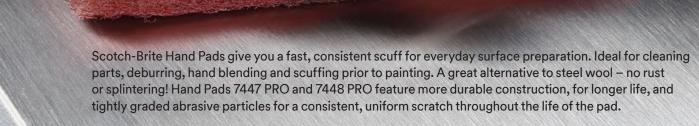

NEW!

Scotch-Brite[™] Universal Surface Conditioning Back-up Pad

Featuring a secure, dual-lock attachment, a lower profile and a higher maximum operating speed. The Scotch-Brite Universal Back Up Pad can be run with Hook & Loop discs, No Hole discs and Center Hole discs. It offers improved centering, and comes packaged with everything you need for quick and easy tool attachment, including three attachment nuts (5/8-11, M14, M10) and an optional snap-in center post.

Product Selection and Use: Many factors beyond 3M's control and uniquely within user's knowledge and control can affect the use and performance of a 3M product in a particular application. As a result, customer is solely responsible for evaluating the product and determining whether it is appropriate and suitable for customer's application, including conducting a workplace hazard assessment and reviewing all applicable regulations and standards (e.g., OSHA, ANSI, etc.). Failure to properly evaluate, select, and use a 3M product and appropriate safety products, or to meet all applicable safety regulations, may result in injury, sickness, death, and/or harm to property.

Warranty, Limited Remedy, and Disclaimer: Unless a different warranty is specifically stated on the applicable 3M product packaging or product literature (in which case such warranty governs), 3M warrants that each 3M product meets the applicable 3M product specification at the time 3M ships the product. 3M MAKES NO OTHER WARRANTIES OR CONDITIONS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY IMPLIED WARRANTY OR CONDITION OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR ARISING OUT OF A COURSE OF DEALING, CUSTOM, OR USAGE OF TRADE. If a 3M product does not conform to this warranty, then the sole and exclusive remedy is, at 3M's option, replacement of the 3M product or refund of the purchase price.

Limitation of Liability: Except for the limited remedy stated above, and except to the extent prohibited by law, 3M will not be liable for any loss or damage arising from or related to the 3M product, whether direct, indirect, special, incidental, or consequential (including, but not limited to, lost profits or business opportunity), regardless of the legal or equitable theory asserted, including, but not limited to, warranty, contract, negligence, or strict liability.
